DATE: September 13, 2012

FROM: Tom Barrett, Executive Director

RE: Annual Report on Obsolete, Unnecessary, or Duplicative Rules, as Required by
Minnesota Statute Section 14.05, Subdivision 5

The Gambling Control Board completed a rulemaking process with rules that became effective on March 1, 2011. In that process the Board addressed and eliminated all obsolete rules identified in its rules report of December 1, 2010.

Therefore, there are no obsolete rules to be reported at this time. The Board has requested public comment on possible lawful gambling rules related to electronic pull-tabs and bingo and any other concerns that may arise. During this process if it is determined there are obsolete rules they will be noted and eliminated if rules are adopted.

If you have questions regarding this report please contact:
